

PROJECT MANAGEMENT SYSTEM – COMPLETE ROLE-BASED SPECIFICATION

1 SYSTEM ROLES

The system has 4 main roles:

- Student (Member)
 - Group Leader (Student with extra permissions)
 - Supervisor
 - Coordinator
-

2 STUDENT (REGULAR MEMBER)

A student who is not a group leader can:

Group

- Be added to a group by a Group Leader using phone number.
 - See:
 - Group name
 - Group members
 - Group leader
 - If project has NOT been created:
 - Can be removed from group by leader.
 - If project HAS been created:
 - Cannot be removed from group.
-

Project View

On dashboard student can see:

- Project title
- Project description
- Category

- Features
 - Budget
 - Academic year
 - Whether project is approved
 - Assigned supervisor(s)
 - Submission deadline
 - Progress (e.g., 2/6 chapters completed)
 - If project is completed
-

● **Proposals**

- Can see:
 - All uploaded proposal versions
 - Coordinator comments
 - Cannot:
 - Upload more than 3 proposals total per project.
-

● **Chapter Submissions**

If chapter is OPEN:

- Can upload submission file.

Rules:

- Chapters 1–5:
 - Allowed formats: PDF, DOCX, TXT
 - Max size: 1MB
- Chapter 6:
 - ONLY Group Leader and Supervisor can upload
 - ZIP allowed
 - Large size allowed

Student can:

- See all previous submissions
 - See supervisor feedback
-

● **AI Review Visibility**

- Cannot trigger AI review.
 - Cannot see AI review results generated by supervisor.
-

● **Scores**

After project is completed:

- Can see:
 - Each supervisor's score
 - Document score
 - System score
 - Remarks
 - Final average score
-

3 GROUP LEADER (SPECIAL STUDENT)

Group Leader can do EVERYTHING a normal student can, PLUS:

● **Group Management**

- Add members by phone number.
- First time adding member:
 - System auto-creates group.
 - Leader is assigned as group.leader.
- If phone belongs to:
 - Student not in group → Add.
 - Student already in same group AND project not created → Remove.
- Cannot:

- Delete group after project is created.
 - Remove members after project is approved.
-

● Create Project (Multi-Step)

Step 1: Basic Info

- Title
- Description
- Category
- Add budget
- Optional: Tag previous project

Step 2: Details

- Upload proposal (PDF only, $\leq 1\text{MB}$)
- Add features (multiple)

Step 3: Finish

- Project status $\rightarrow$ Pending
 - Sent to Coordinator
-

● If Tagged to Previous Project

Leader gains read-only access to:

- Previous project proposal
-

COORDINATOR

Coordinator is the academic controller.

● Academic Year Setup

- Select academic year.
- Set submission deadline for that year.

If no deadline set:

- Automatically set to September 30 of that academic year.

Every project created in that year:

- Automatically inherits that deadline.
-

Category Management

Coordinator can:

- Create category
 - Update category
 - Delete category
-

View All Projects

Can see:

- Project title
 - Description
 - Features
 - Budget
 - Group members
 - Leader
 - Proposal versions
 - Proposal comments
 - Supervisor(s)
 - Chapter progress
 - Completion status
-

Proposal Review

Rules:

- Maximum 3 proposals per project.
- Must be PDF.

- Max size 1MB.

Coordinator can:

- Open proposal
 - Comment on proposal
 - Students see comment on dashboard.
-

● **Assign Supervisor**

Coordinator can:

- Assign one or more supervisors.

When supervisor is assigned:

- `project.approved = True`
- `project.approval_date = now`

System automatically:

- Creates 6 chapters.
-

● **Chapter Creation (Automatic)**

When project approved:

System creates:

- Chapter 1
 - Chapter 2
 - Chapter 3
 - Chapter 4
 - Chapter 5
 - Chapter 6 (Final)
-

● **Alert Button**

Coordinator can click:

“Alert Project”

System sends SMS to:

- 2 group members
 - All supervisors
-

Supervisor Workload View

Coordinator can select academic year and see:

For each supervisor:

- Number of projects
 - Number of students assigned
-

Export Academic Report

Coordinator can:

1. Select academic year.
2. Download report (CSV/Excel).

Report contains:

- Project title
- Student name
- Phone number
- Supervisor(s)
- Document score
- System score
- Final average score
- Academic year

If project not completed he gets to know which chapter has been completed.

SUPERVISOR

Dashboard View

Supervisor can see:

- All assigned projects
 - Project details
 - Tagged previous project access
 - Progress (e.g., 3/6)
 - Completion status
-

● Chapter Control

Supervisor can:

- Open ONLY one chapter at a time.
 - When one chapter is opened:
 - All other chapters auto-close.
-

● Submissions

If chapter is open:

Supervisor can:

- Upload submission
- Comment

Students can:

- Upload submission (except Chapter 6)
 - Comment
-

● Chapter Completion

Supervisor can:

- Mark chapter as completed.
- Once completed:
 - Chapter is locked.
 - Can be reopened.

Progress:

- completed_chapters / 6
-

● Chapter 6 Rules

Only:

- Group Leader
- Supervisor

Can upload:

- ZIP
 - Final documents
-

● AI Review

On each submission:

Supervisor sees button:
“Review with AI”

Rules:

- Max 2 AI reviews per chapter.
- AI result saved permanently.

AI Output includes:

- Strengths
 - Weaknesses
 - Improvements
 - Suggestions
-

● Project Approval

After all 6 chapters completed:

Each supervisor must approve project.

System tracks approvals per supervisor.

Project is marked COMPLETE only when:

- All chapters completed
 - All supervisors approved
-

Grading Students

After project is complete:

Supervisor can:

- Assign individual scores per student:
 - Document Score
 - System Score
 - Remarks

Validation:

- Document + System = 100

If multiple supervisors:

- Each supervisor grades independently.
 - Final score = average of all supervisor scores.
-

PROJECT COMPLETION FLOW

1. Group created
2. Project created
3. Proposal uploaded
4. Coordinator reviews
5. Supervisor assigned
6. 6 chapters auto-created
7. Supervisor opens chapter
8. Submissions back-and-forth
9. Chapter completed
10. Repeat until 6 completed

11. All supervisors approve
 12. Project marked COMPLETE
 13. Supervisors assign student scores
 14. Coordinator can export results
-

7 SYSTEM RESTRICTIONS (IMPORTANT)

- Students cannot edit project after approval.
 - Leader cannot remove members after approval.
 - Only coordinator assigns supervisor.
 - Only supervisor opens or completes chapters.
 - Only leader + supervisor upload in Chapter 6.
 - Max 3 proposals.
 - AI review max 2 per chapter submission.
 - File size rules enforced.
-

8 PUBLIC PROJECTS PAGE

System must have page showing:

- Title
- Description
- Features
- Budget
- Supervisors
- Academic year

Filterable by:

- Academic year
 - Category
 - Supervisor
-

9 SMS TRIGGERS

SMS sent when:

- Member added
- Member removed
- Project submitted
- Proposal commented
- Supervisor assigned
- Chapter opened
- Chapter completed
- Project approved
- Scores submitted
- Alert button clicked

Recipients:

- 2 group members
- Supervisor(s)

All logged in SMSLog.

10 FINAL SYSTEM STATES

Project Status:

- Draft
- Submitted
- Approved
- In Progress
- Completed
- Graded
- Archived
